 Edit  Stop  Copy  Delete  Run

Depending on the status of your listing, you will have different options available for managing with your listing.

Edit: Allows you to change your listing details and photos to display.

Stop: Allows you to stop the listing from displaying. This is typically done when you sell an item before it expires and no longer want the listing showing up.

Copy: Allows you to copy an existing ad. This is especially useful if your ad has expired and you want to renew the ad for another run.

Delete: Allows you to completely delete the listing from our system.

Run: Allows you to activate an ad that is sitting in draft mode.

After 24 hours of entering your ad, if it doesn't show up, check your listings and be sure the ad isn't inactive, sitting in draft mode. An ad sitting in draft mode will just sit there until you either make it active or you remove it. Once it is active, the Marketplace staff will get a notification to approve.

Click on Update Profile to make changes to your registration information.

Click on Order History to see past purchases.
